SKILLS

Full stack web developer with three years studying biology and psychology at the University of Toronto. Recently earned a certificate in full stack web development from the University of Toronto Coding Bootcamp. My newly acquired skills include JavaScript, MySQL, MongoDB, Express.js, React.js, Node.js, and other libraries and frameworks such as Bootstrap, Bulma, and jQuery. I look forward to contributing my problem-solving skills on a fast-paced team and to familiarizing myself with more technologies as I progress.

EXPERIENCE

GSH Medical Liberty Village, Toronto - *Administrative Assistant*

SEPTEMBER 2020 - August 2021

- Various administrative duties for a walk-in medical clinic as well as physical rehabilitation team (chiropractor, physiotherapy, massage, podiatry/chiropractic)
- Fast-paced, no-nonsense environment with most of my time

EDUCATION

University of Toronto, Toronto - *Coding Bootcamp*
